

PRESS RELEASE

TV sound from a bulb: connecting light and music made easy – Pulse Link

Smart lighting specialist, Sengled, extends its Pulse range with the introduction of Pulse Link

Düsseldorf, 1st February 2017: Sengled today announces an addition to its product portfolio for the smart home, with the the *Sengled Pulse Link* now available to purchase in the online store. The new *Pulse* adapter has already been presented at the Consumer Electronic Show (CES) 2017 in Las Vegas and received the Innovation Award in the category 'smart home'. With the *Pulse Link* starter set, through the adapter, two *Pulse* satellite bulbs may be connected to the TV to create an improved audio experience.

The *Sengled Pulse Link* adds to the already hugely successful *Sengled Pulse* range. The *Pulse Link* is ideal for music lovers as it can be connected with the *Pulse* bulbs with built-in JBL Bluetooth® speakers, providing an enhanced audio experience. Through the *Pulse Link* adapter, which can be connected to a receiver or TV, audio signals can be transmitted wirelessly to all *Pulse* satellite light bulbs. This way, users are able to experience high-quality stereo sound through various light bulbs. Using the additional 3.5mm jack connection, many more music sources can be connected with the *Sengled Pulse* system.

The *Sengled Pulse Link* set is currently available as a bundle for 199.90 EUR. It contains two *Pulse* satellites and a *Pulse Link* adapter. The adapter is available separately at an RRP of 99.90 EUR.
