solo 2

COLOR CHANGING LED + BLUETOOTH SPEAKER

- Stream music with the integrated Bluetooth speaker via smartphone or Amazon's Alexa
- Sync sound and light according to your mood
- 16 Million colors and 5 preset patterns via app
- Soothe your night with soft music and relaxing light

Music and colours out of the light bulb: Control the rhythm of your light colours with Sengled Solo 2 RGBW and turn your home to a dancefloor. Suit the mood or home decor with 16 million colors and five preset patterns (Relax, Concentrate, Rhythm, Romantic, Rainbow). Fall asleep gently with soft music and relaxing light by using the sleep assistant. Easy installation: Download the app and connect via Bluetooth. Now you are ready to stream music with your smartphone or even use voice control with Amazon's Alexa.
